**Andrea Smith : Loving Jesse (Forbidden Series Book 1)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Loving Jesse (Forbidden Series Book 1):

I have to be honest, I wasn't crazy about September at first, she seemed immature. I don't know exactly what changed but she really grew up in a short amount of time. I saw nothing wrong with the age difference! I finished and was left thinking "Nooooo! That can't be it!" I implore Ms Blue to write as quick as she can! I am not a fan of Septembers mom so I know how I'd like to see how this turns out! September really grew into a confident and strong character!0 of 0 people found the following review helpful. Sinfully greatBy RachelI love this. It was good to read. This may not happen in real life but in my head it does. I love the way these two were brought together. Love is a powerful thing. Can't wait for the next book.1 of 1 people found the following review helpful. Watch out for Author Graysen BlueBy Christy Pritchard ( Crikette's Bookshelf)I will be totally honest here, I don't usually read books like this, but it was a gift to me and I was actually drawn in by the blurb!Some might find this story a little hard to want to read, but let me tell you, this book is beautifully written! I didn't find it distasteful in anyway, the author did an amazing job bringing this very touchy subject to life.I will not go into details of the book because you should read it for yourself. I'm not into spoilers!!Cannot wait to see what we get next from this Author!!!

When is love wrong?Jesse Ryan has always been the love of my life, from as far back as I can remember. But time, distance and circumstances beyond my control separated the two of us for many years.Now things have changed. Because you see now I'm a grown woman, and it's time that Jesse sees that for himself. But will he see me as anything other than the child I was when we last saw one another? It's up to me to make sure that he does.Look out Jesse Ryan. September is back.
